

Use the template and instructions to create your own sound amplifier at home! You need:

- Recycled cereal box (unfolded)
- glue/tape
- paint
- decorations of your choosing

Tip: Trace and cut as a single piece of cardboard

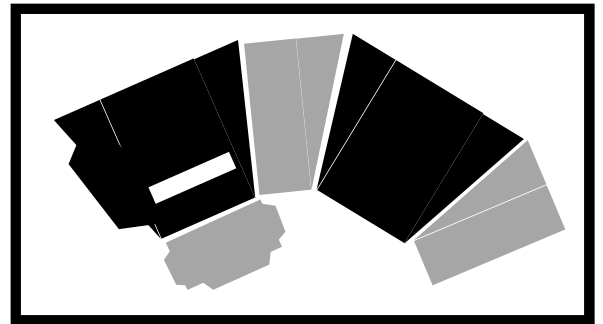

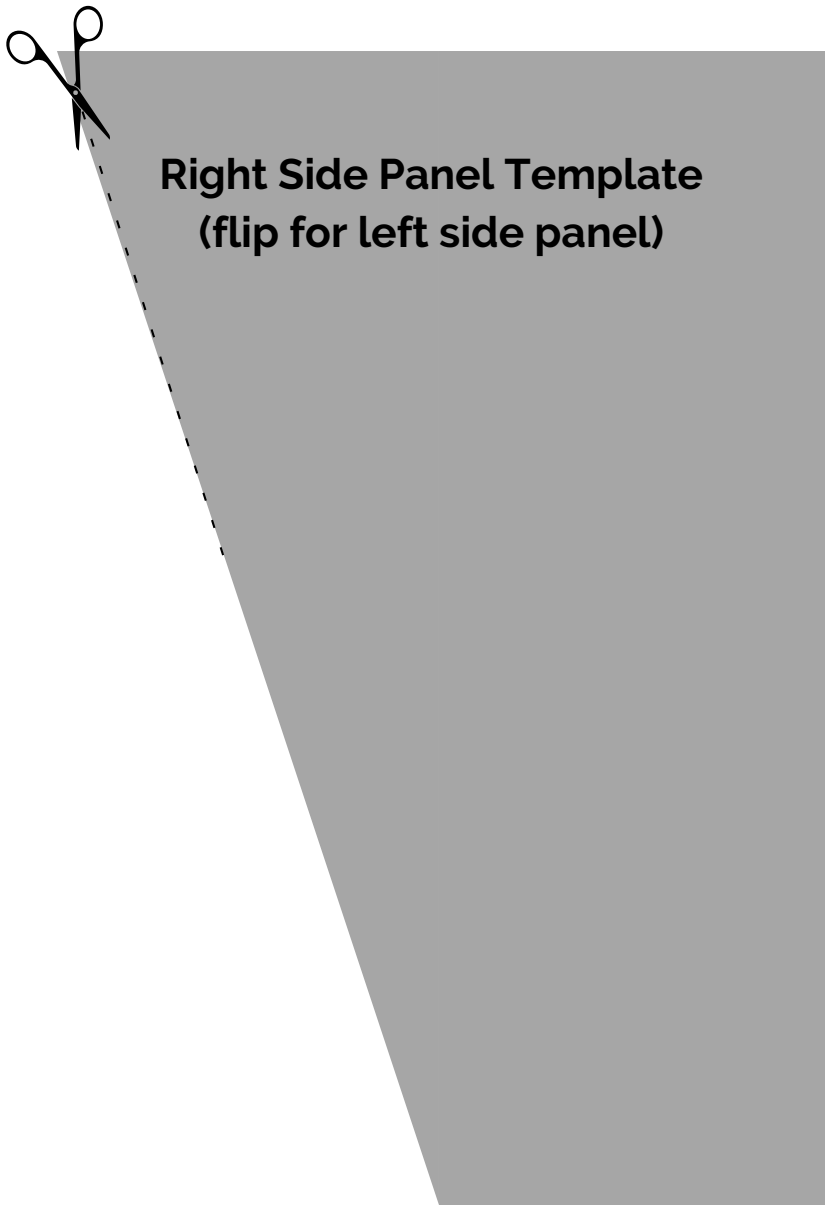

Top and Bottom Panel Template

STEPS

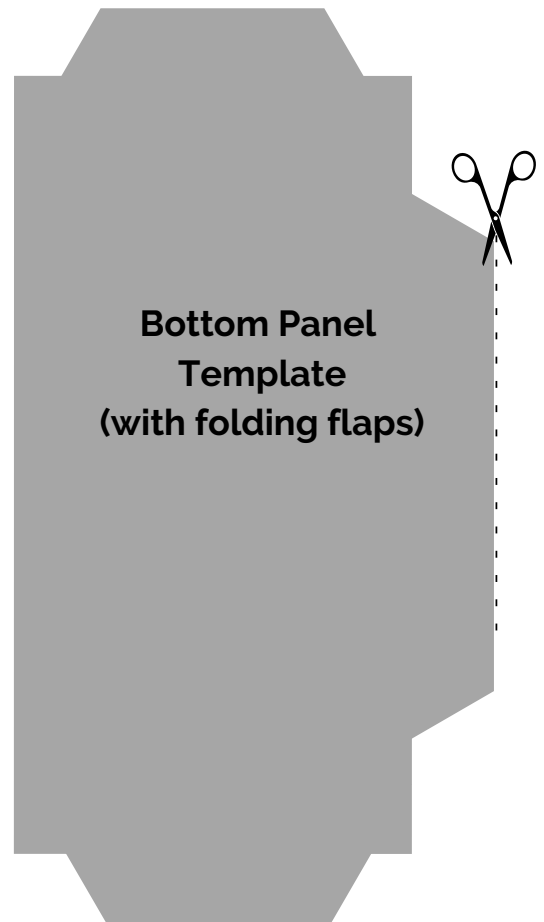

1. **Cut out the templates and trace onto cardboard as seen in the video** (be sure to include the folding flap **only** on the left most panel as shown in diagram)
2. **Cut out the cardboard** (measure your device and cut a hole on the top panel)
3. **fold along all inside lines**
4. **tape or glue along the flaps**
5. **Paint**
6. **Add features and decorations!**

GOD SPEAKS TO
ME!

MAKE A SOUND AMPLIFIER! (2/2)

Tip: Trace and cut as a single piece
of cardboard

In **Luke 5:1-5** read about how Jesus used a boat by the lake to make his voice heard as he taught the crowd. Did you know that sound travels further over water?
